## TOWN WARRANT.

---

To the inhabitants of the Town of Derry, qualified to vote in Town Affairs:

You are hereby instructed to meet at the Adams Memorial Building in said Town on the second Tuesday of March next, at Ten O'clock in the forenoon to act upon the following subjects:

1. To elect three selectmen, one for three years, one for two years, one for one year, a Clerk, Treasurer, Collector of Taxes, Library Trustees, Trustee of the Trust Funds, Auditors, and all other necessary town officials for the year ensuing.

2. To vote to raise and appropriate such sums of money as may be necessary for the support of schools, maintenance of the poor, for laying out and repairing highways, building and repairing bridges, for the suppression of moths, for the police department and Municipal Court, for hydrant service and electric lights, for salaries of Town officers, for the Board of Health, for expenses of Town halls, for State and County taxes, and for all other necessary charges arising in said Town:

3. To see what sum of money the Town will vote to raise and appropriate for the use of Upton Post No. 45, G. A. R. to defray the expenses of Memorial Day.

4. To hear the reports of agents, auditors, and committees heretofore chosen and pass any vote relating thereto.

5. To see if the Town will vote to raise and appropriate a sum of money for the permanent improvement of highways in accordance with the provisions of

Sec. 4, of Chapter 35 of the Laws of 1905 and any amendments thereto and pass any vote relating to the same.

6. To see if the Town will vote to raise and appropriate a sum of money for the maintenance of trunk line roads, and pass any vote relating thereto.

7. To see what sum of money the Town will vote to raise and appropriate for the use of Derry Public Library and for Taylor Public Library and pass any vote relating thereto.

8. To see what sum of money the Town will vote to raise and appropriate to sprinkle or oil the streets and pass any vote relating thereto.

9. To see if the Town will vote to raise and appropriate not exceeding three hundred dollars in aid of the Derry Visiting Nurse Association, and pass any vote relating thereto.

10. To see what sum of money the Town will vote to raise and appropriate for a sinking fund for the payment of Town bonds and pass any vote relating thereto.

11. To see if the Town will vote to authorize its selectmen to borrow money in anticipation of taxes, on the negotiable notes of the Town and pass any vote relating thereto.

12. To hear the report of the committee on building laws and pass any vote relating thereto.

13. To see what sum of money the Town will vote to raise and appropriate for the purpose of co-operating with the State and Federal Governments in the control of the white pine blister, and pass any vote relating thereto.

14. To see if the Town will accept the bequest given in article 10, Section 12, of the will of Frank S. Adams, late of Brookline, Massachusetts, subject to such terms and conditions as may be determined relative thereto by the Probate Court of Norfolk County,

Massachusetts, the language of the bequest being as follows:—

“Article Tenth. All the residue and remainder of my estate, both real, personal and mixed, wherever the same may be located or to which I may be in any way entitled at the time of my death, together with all property or estate over which I may have any power of appointment, I give, devise and bequeath as follows:

Section 12. One fiftieth (1-50) thereof to the Taylor Library, a corporation located at East Derry in the State of New Hampshire, or in case said corporation have no power to hold property in trust, then such one fiftieth (1-50) to such person, persons or corporation as may be therefor nominated by said Taylor Library, in either case in trust to pay, dispose or distribute the net income or the principal thereof in any manner as the said Taylor Library may consider expedient in support of the public charitable purposes contemplated under its organization.”

15. To see if the town will vote to accept the bequest given in the will of Marcia Emery, late of said Derry, for the support of Taylor Library, subject to the terms and conditions as provided in said will, also subject to such terms and conditions as may be determined relative thereto, by the Probate Court of Norfolk County, Massachusetts, and pass any vote relating thereto.

16. To see if the town will vote to accept the provisions of Chapter 117, Laws of 1917, on a section of the Derry-Raymond Road, so-called, and appropriate, or set aside from the amount raised for highway work, the sum of \$175.00 for this purpose and pass any vote relating thereto.

17. To bring in your ballots upon each of the questions submitted by the Convention to Revise the Constitution relative to the amendments proposed by

said Convention at a session held on January 28, 1921.

18. To see if the Town will vote to instruct all Town officials having the custody of any of the funds of the Town to deposit the same in such local banking institution as will pay to the Town the highest rate of interest on the average daily balance, and pass any vote relating thereto.

19. To see if the Town will vote to discontinue the payment by the Town of the sum of Three Dollars for each and every grave dug in East Derry Cemetery, and pass any vote relating thereto.

20. To see if the Town will vote to purchase the sewer and the rights and franchises of the West Derry Sewerage Association and pass any vote relating thereto.

21. To see if the Town will vote to purchase a fire-proof safe for the use of the Town Clerk, raise and appropriate money for the same and pass any vote relating thereto.

22. To see if the Town will direct the Tax Collector to allow a discount to all persons paying their taxes within such periods as the Town shall limit, to fix the rate of such discount and pass any vote relating thereto.

23. To see if the Town will direct the Tax Collector to send a notice to all persons paying a tax on personal property, on the first day of October notifying such persons that if their tax is not paid in full with twenty cents for the notice within fourteen days from the first day of October that he will distrain for the same, also to see if the Town will direct the Tax Collector to distrain in such cases, and pass any vote relating thereto.

24. To see if the Town will vote to purchase all the property of the three fire districts in said Town provided that all three districts legally voted to dissolve of

their corporate property, and pass any vote relating thereto. (By request.)

25. In case the Town does so vote to purchase the property of the three fire districts, to see if the Town will authorize the Selectmen to issue the serial negotiable notes of the Town in payment of the same.

26. In case the Town does so vote to purchase the property of the three fire districts, to see what sum of money the Town will vote to raise and appropriate for the purpose of the fire department for the ensuing year.

27. And in case the Town votes to purchase the property of the three fire districts, to elect a chief engineer and two assistants for the fire department for the ensuing year.

28. To appoint any necessary committee on any article embraced in this warrant.

Given under our hands and seals this 21st day of February, 1921.

ALBERT B. ROBERTS,

CHARLES L. WOODMAN,

Selectmen of Derry.

A true copy of the Warrant—Attest.

ALBERT B. ROBERTS,

CHARLES L. WOODMAN,

Selectmen of Derry.

F. M. McGREGOR,

F. B. OAKES,

H. L. GRINNELL, JR.,

Auditors.

## REPORT OF TAX COLLECTOR.

I will report the taxes all collected up to the last inventory (1920) statement is given below by the Auditors.

I will take this opportunity to say that I have been authorized to secure payment on the uncollected taxes of the late John E. Webster, amounting to several thousand dollars, included in the levies of 1902 to 1916.

Delinquents on property taxes will soon receive a notice of the amount they owe and are requested to call and make such plans for payment as their circumstances will allow, partial payments will be accepted, extending over such a time as is reasonable.

Delinquents on poll taxes represent a very large per cent of these uncollected taxes, most of them have left the town, still there are very many living here today who owe not only one poll tax but many, and it is hoped that these delinquents will come forward cheerfully and pay what they owe and thus help bear the burden of the town's expenses.

E. L. Abbott,  
Collector

## FIREWARD'S REPORT FOR YEAR ENDING FEB. 1, 1921.

To the Voters of the Derry Fire District:

The board of firewards of the district hereby submit to you the following report, during the year the department have answered to 52 calls, mostly telephone and principally chimney fires, fortunately none of a very serious nature; there was one, however, that looked quite serious for a while (the Richardson cider mill), but the efficient work of the department took care of that nicely and without damage to the thousands of dollars worth of property so closely surrounding it, the work of your department in that particular instance is worthy of your commendation.

The total property damage for the year was \$8,369.50, and the value of the property in which these fires occurred was \$369,250.

As you all realize the past year has been a trying one, owing to the business depression, many of the men were obliged to go elsewhere to procure work, leaving us to fill in with subs, but fortunately we have passed through the ordeal without any serious mishaps, and hope for a brighter future for the business of our town.

Early in the spring we contracted with the Derry Village district to handle that part of the town, they to pay to our treasurer the same proportionate rate of fire tax as is levied in this district, and we have looked after their interests during the past year, I think, to the satisfaction of all parties.

A short time ago, you will all remember, a very serious fire occurred in East Derry, and much to our re-

gret destroyed a valuable set of buildings, causing quite a substantial loss to the town in taxes should the owner decide not to rebuild; but we are happy to see that a new set of buildings are being erected. After that fire the people of that district conferred with your board of fire wards, and requested that they be taken care of by this department, the compensation to be the same as that of Derry Village, and we agreed to do that until this time.

As it seems to be the purpose of the inhabitants of those two districts to do something in the way of furnishing us with apparatus suitable to cover this extra territory we believe that by the proper co-operation the plan will work out to the benefit and satisfaction of all, and in the meantime help to reduce the burden of taxation of this district.

We have caused to be installed the compressed air fire signal, as per your vote, the difficulty in getting the material made us quite late in getting it installed, and it is not yet completed, however our system is now entirely independent of everything, and we believe when we have it finished it will be satisfactory to all. The switchboard is paid for, and we believe altogether it is a good investment.

We take this opportunity to thank the public in general for their hearty support at all times, also to thank the firemen for their faithful discharge of duty, and the men who so cheerfully assisted us in the absence of so many of our regular men we extend to them our sincere thanks.

Very respectfully,  
 WILLIS F. CHASE,  
 GEORGE W. HOISINGTON,,  
 CHARLES F. GILLESPIE,

Firewards.

Derry, N. H., February 9, 1921.

## REPORT OF BOARD OF HEALTH.

---

The sanitary condition of the town compares very favorably with other towns in the state.

The first of May people commenced to clean up their yards, removing ashes, rubbish, etc. which had collected during the winter, and the same good work will take place this year.

We have been afflicted with quite a number of scarlatina cases, nearly all being very light.

The disease attacking some of the children so mildly no physician was called and they got by, hardly knowing they had been sick till the tell-tale peeling told the story. In the meantime the child had been attending school and generously spreading the trouble.

When a family is in quarantine the Board furnishes aid in such manner as it deems "wise and necessary." excepting when the mainstay of the family is working he is supposed to care for his family as if there were no quarantine.

DR. WALTER R. SANDERS,  
Secretary of Local Board of Health.

## DERRY WATER WORKS.

### Board of Commissioners.

L. HENRY BAILEY, Term expires January 1, 1922.  
 GUSTAVUS H. BEAN, Term expires January 1, 1923.  
 WILLIAM T. MORSE, Term expires January 1, 1924.

### OFFICERS.

G. H. BEAN, Chairman.

WILLIAM T. MORSE, Clerk of Board.

G. H. BEAN, Superintendent.

CHARLES BARTLETT, Treasurer.

We are greatly pleased at this time to be able to state, that the large new standpipe, which we have needed so long, and which the town voted to procure, at the town meeting last March, has been installed on the high land near the Londonderry line, and is giving perfect satisfaction. We now feel that the town is well protected by water service. Improvements and additions at the pumping station have been made, as will be learned from the detailed report of Superintendent Bean, which follows:

G. H. BEAN,

WILLIAM T. MORSE,

L. H. BAILEY,

Commissioners.

To the Board of Water Commissioners: :

I herewith submit the annual report of the Superintendent for the year ending December 31, 1920.

In accordance with the vote of the Town last March, the recommendations of the State Board of Underwriters as printed in our last report, have been carried out.

The site of the new standpipe is on high land off Hillside Ave., near Wyman street. The standpipe itself is forty-nine feet six inches in diameter and seventy feet high with a capacity of one million gallons. The top is practically on a level with the top of the old one.

The new standpipe has a twelve inch pipe connection in the bottom, from this a twelve-inch pipe has been laid to Hillside Ave., along Hillside Ave., five hundred and seventy-five feet to Beacon street, down Beacon street two hundred fifty feet, meeting the end of the six-inch pipe near Lawrence street.

In the spring this six-inch pipe will be taken up to High street and replaced by twelve-inch pipe which we have on hand. From High street the water may then reach the town in either direction.

The six-inch line on Wyman street was extended along Hillside avenue to the standpipe, a distance of four hundred fifty feet, this makes another way for the water to reach the town.

The contract for the standpipe was let to the Chicago Bridge and Iron Works, they being the lowest bidder. The foundation and pipe connections were put in by the water department.

At the pumping station we have installed one De Lavel two stage, motor driven, centrifugal pump, designed to pump two hundred gallons per minute against a two hundred twenty foot head. This pump has been in operation since October 20, and has given

satisfaction. We believe it will be a saving over the old steam pump.

When installing the electric pump we went to considerable extra expense in order not to disturb the old equipment, which was left intact and ready for use at any time when needed.

We have ordered a vacuum pump which has not arrived, but we expect to have it in operation in a few months. This will complete the electric equipment.

With the electric pump we intend to keep the stand-pipe nearly full at all times. Having this large additional storage we feel we have an adequate supply of water for any emergency.

The fifty thousand dollar bonds, were placed with Harris, Forbes & Co., of Boston, Mass., at five per cent. due \$25.00 April 1st, of each year 1921 to 1940 both inclusive. From which we realized \$49.750, this was expended as follows:

Standpipe	\$31,200.00
Land, foundation and labor on six in. pipe	
connection from Wyman Street	4,923.16
Cast iron pipe, hydrants and valves	5,407.28
Pump	1,717.00
Fittings and installing pump including	
electric wiring	1,385.50
	<hr/>
	\$44,632.94

The balance is drawing five per cent interest and will be available for completing some of the work which it was impossible to finish this year.

Fourteen leaks in the service pipes have been repaired; two services relaid; two old hydrants replaced; two four inch gates set; three hundred feet of two inch pipe on West Broadway relaid; the hydrant and pipe connection at the corner of West Broadway and High street has been lowered to prevent freezing; one new

hydrant installed at Derry Shoe Factory near South Avenue and a two inch line extended from Hunt & Tapley's Factory to the Standard Oil plant, a distance of two hundred and forty feet.

### STATISTICS.

Number of services January 1, 1920, 866.

Number added during the year, 7.

Total number 873 of which 606 are metered.

Number of meters added during the year, 20.

## DERRY PUBLIC LIBRARY.

---

To the Trustees of the Derry Public Library:—

The Sixteenth annual report of the library for the year ending January 31, 1921, is here presented:

I am able to report this year a substantial gain in the number of books loaned. The increase is 2,879, a gain of 7.7 per cent making the years circulation 39,907, the largest the library has ever had.

The efforts to acquaint more people with our non-fiction have been continued, the special displays and lists on various subjects have been given prominence, in addition to these methods a book display rack was purchased last summer, and some desirable book of non-fiction is always displayed prominently, with the question below it, "Have you read this?". This has noticeably increased the demand for these books.

The library has also taken advantage of inter-library loans, obtaining for our patrons, through the State library, the Manchester library, and the Boston City library, material which we were unable to supply from our shelves.

The library has been very fortunate in receiving a number of books from the American Library Association, to the value of approximately \$150. These books were returned from overseas service, they include volumes on agriculture, business, and the sciences and have added greatly to those subjects in which the library was deficient. The gift has come at a very opportune time as our funds have been insufficient to buy the many books needed. So many books are wearing out with our large circulation that it takes quite a number to supply this loss, and leaves very little money with which to increase our library.

Glance for a moment at the figures: 127 were discarded because they were worn out, 24 burned on account of contagious disease, 11 lost through circulation and 3 unaccounted for; a total loss of 170. Then look at the number we were able to purchase, only 246, a net gain of but 76. You can easily see how insufficient our funds are for the work that is carried on.

Cardboard mounts have been so hard to obtain that none have been purchased until recently, as only a few pictures have been added to our collection. The collection however, is being generally used and many words of appreciation are heard for it. We now have mounts and next year I hope to report a large addition to our mounted picture collection.

I was privileged to attend last August, the first Summer Library School under the auspices of the New Hampshire Library Commission. This was held for one week at the State College, Durham. The instructors were trained library workers and the courses were replete with practical help. The sessions began at eight in the morning and continued until five in the afternoon. With the outside work which we were expected to do we were kept exceedingly busy, but I feel that the week spent there was well worth while and that many of the suggestionss received will be of lasting value to the library.

The following gifts have been received:

	Volumes	Periodicals
American Library Association	85	
Carnegie Endowment	5	
Laconia Public Library	4	
Capt. John Stanlay	1	
Elsie Gaskin	2	
Mrs. I. H. Gaskin	2

## REPORT OF THE TRUSTEES OF DERRY PUBLIC LIBRARY.

The report of our librarian, as usual, leaves but little that can be added, to fully acquaint the public with the work of the library the last year, with its present condition and needs. We would call attention to the fact that more books have been loaned than in and previous year since the library was established, only 93 less than FORTY THOUSAND. A record equaled by only a few libraries in the state and these principally in cities or places of much larger population than Derry. Especial notice should be taken of Miss Gaskin's effort to increase the reading of non-fiction works, which has been so apparently successful. It hardly seems necessary that the "insufficiency of our funds" should be further emphasized. During the last year we were obliged to purchase an additional book stack at an expense of \$140. Heretofore the furnishings have been provided for by general funds.

In common with our citizens generally, the trustees lament the death of Rev. D. J. Dunn, who was a member of the board from the beginning of the library's history. To fill the vacancy thus caused, we would recommend the election of Miss Mary H. Meserve, who has been appointed by the selectmen to serve until Town Meeting, as required by law.

The term of Mrs. Low expires this year, and we also

ask her re-election as for efficiency and interest it would be difficult to fill her place.

## TAYLOR LIBRARY.

---

Taylor library is filling the place in the community that its founders intended it should, we believe, and efforts are being made by the trustees, librarian and friends, to improve its value and usefulness along all lines so far as seen and understood. While the present quarters are altogether too contracted, we have been able to add more shelving in the room the G. A. R. post has occupied, and with the space thus afforded for books a more convenient arrangement has been provided. A valuable acquisition to the board of trustees is that of Alan B. Shepard who takes the place of Rev. F. C. Saure, who resigned last year. The library has in prospect two bequests from former residents of East Derry, now deceased. If the money becomes available, and the town votes to accept it, it will assist greatly in the purchase of new books and magazines. We are always glad to receive suggestions from those who desire to have new books added to the library.

Derry, N. H. Feb. 4, 1921

I have this day examined the books of the Derry Town School District and find them correct and properly vouched.

W. J. KINGSBURY,

Auditor

## . REPORT OF SUPERINTENDENT OF SCHOOLS..

To the Derry School Boards:

I take pleasure in submitting my first annual report as superintendent of schools.

Since taking up my duties September 7, 1920 I have made 233 visits to school rooms in this district. I have made a careful study of the condition of the school houses character of the teaching, organization of the schools, text books and supplies, and state aid. I have accordingly limited my report to these topics.

### HOUSING:

The village schools are well housed in three substantial buildings, all of which are in a good state of preservation. The Oak street School and the Floyd were overhauled this fall and put in first class condition. The West Side School needs painting badly. The building should be attended to before the exposure of the weather disintegrates the wooden surface to such an extent tthat it becomes porus and thereby makes the painting material unduly expensive. Considerable expense will be saved the town if this building is painted at once.

The Oak Street School should provide a toilet and rest room for the teachers. I would suggest that the bookcase in the west alcove be removed and a room constructed and equipped here for this purpose.

The janitor service in all of these schools is first class and deserves special commendation.

The village school needs shingling and painting.

No. 4 School is a model rural school in every way, .

No. 6 School demonstrates the possibility of adapting a typical one room school to modern conditions. The rest of the rural schools are of the one room, 1 teacher type. They are rectangular in shape, of the typical box car variety, with windows on the end and sides and about 24x28 in size of floor space. The lighting in these schools is insufficient and harmful. The cross lights so vary the intensity of the light in these buildings that there is a constant strain upon the eye muscles in their endeavor to adjust themselves to the varying conditions.

The light should come from the left or the left and rear of the room. The lighting space of the windows should amount to 25 per cent of the floor space. A smaller amount of light will not suffice. The toilets of these buildings should be enlarged and connected with the school room so that the children will not go out of doors to go to the toilet. The toilets themselves should be kept fresh and clean throughout the year.

The furniture should be replaced with modern adjustable furniture. The schools have been recently equipped with jacketed stoves providing comfortable heating and good ventilation.

With the exception of the No. 4 School all of these schools belong to the pioneer era of the town. Their use after being placed in condition is limited to the first five or six grades. The older pupils should be (it would be better for all of the pupils to be) transported to the graded village schools where better instruction and facilities may be provided.

There is no possibility of making the instruction for all eight grades in a rural school of the one teacher type effective. Of all of the pupils who fail in two or more subjects at Pinkerton Academy six out of every seven are products of these one room rural schools. The

results of such instruction reduced to statistical statement is, indeed, very significant. (This statement applies to all rural schools sending pupils to Pinkerton and not to Derry alone.) Teachers of these schools have no time for individual attention to the pupils for supervising study nor for the newer subjects in the educational program. The children spend several hours a day on their own resources at an early age before they know how to study or employ themselves in any useful occupation. Without the supervision of the teacher they idle much of the time and form bad habits of study which are difficult to eradicate during the remainder of school life. Few teachers are qualified by nature, education and training to teach both the upper and lower grades. In the parlance of a farmer these schools are likened to "running a farm with plenty of tools but without much team—you cannot do much."

#### TEACHERS:

Derry is fortunate in having a good teaching force. I have found the teachers anxious to improve themselves professionally. A teachers club has recently been formed to discuss educational problems and for cultural improvement. Meetings are held twice a month and a majority of the teachers attend the meetings. These meetings are in addition to the monthly meetings the teachers are required to attend.

All teachers are being encouraged to develop as fully as possible the course of study as outlined by the State Program of Studies. The means of securing the maximum amount of participation by the pupils in the recitation is being studied with the teachers. Mrs. Esther Adams and Miss A. E. Newbegin have given demonstrations at teachers meetings of the project method of teaching and the socialized recitation. The work of these teachers and their pupils was much appreciated by the teachers at these two meetings. The

demonstrations afforded abundant material for discussion and reflection concerning the principles fundamental to the newer methods of teaching. Incidentally methods have been driven on which tend to stimulate greater facility in the use of correct English and other media of communication.

There have been no vacancies in our rural school since the opening of schools but I wish to call your attention to the shortage of rural school teachers. There are none in the market at the present time who are fairly well qualified to do this work. The village schools are at the present time absorbing all well qualified teachers and probably will continue to do so for some time to come.

#### ORGANIZATION:

The organization of the schools is of the eight and four plan ie. eight years elementary and four years high school. In the first eight years of the course but one teacher is employed to a grade. The teachers in these grades have but little opportunity to relate the branches as taught to the experiences of the children. Domestic science and shop work are absent from the program. More attention should be given to nature study, art, hand work, and physical education.

The organization of the seventh and eighth grades may be materially improved by housing them in the same building. (This statement may apply to the other grades in a limited way.) The teachers of these two grades may be utilized to better advantage in one building by departmentalizing the work. By so doing the teachers would teach but one or two subjects instead of eight or nine as they do now. Such a plan would result in better preparation and more skilled teaching by the teachers. More comprehensive courses may be offered.

Such a course of study may consist of history,

science, English, French, arithmetic, constructional geometry, algebra, shop work, domestic science, drawing, music and writing. In the eight grade, book-keeping, typewriting, shorthand and Latin may be taught according to the type of activity the child seems best adapted.

This plan permits the introduction of newer subject matter better adapted to the age of the child. Pupils in these grades frequently become disinterested owing to the staleness of the subject matter and its lack of practical application. The newer subjects embrace the older ones but interpret them to the child more in the light of his own experience. They give him the opportunity to branch out and do those things which appear to him really worth while. It is at this age we lose more pupils than elsewhere in the curriculum. Experience has demonstrated that schools adopting this plan hold the pupils against the many powerful influences brought to bear upon them at this time to leave school.

#### TEXT BOOKS AND SUPPLIES.

The supply of text books distributed among the school has become depleted and worn out to such a extent that there are not sets enough to meet the minimum requirements. The appropriation for texts is the same amount that was appropriated in 1910. Since that time prices have more than doubled. In view of the fact that the State Board of Education will approve of an expenditure of \$1.50 per pupil for texts I would recommend that the budget be increased in this item. The State Authorities will also allow a proportionate increase in the state aid on supplies.

#### STATE AID ALLOWED 1920-1921.

Proposed Expenditure	Amount Allowed by	
	State Board of Education	
Teachers' Salaries	\$21,844.00	\$21,287.00.
Texts	500.00	500.00.

Supplies	500.00	500.00
Miscellaneous	225.00	25.00
Janitors	1,770.00	1,770.00
Fuel	3,654.00	2,160.00
Water and Light	175.00	175.00
Minor Repairs	1,875.00	625.00
Health	1,200.00	751.00
Transportation	756.00	756.00
Tuition	18.00	18.00

---

\$32,457.00 \$28,567.00

The salary of the music teacher was cut \$557, fuel \$1494, repairs \$1290, the item for health \$449, and miscellaneous expenses were cut \$200, making a total cut of estimated state aid of \$3690. The policy of the State Board of Education is to allow no more state aid to each school room than a one room rural school would reasonably require. The maximum allowance for wood is \$60 per school room, for coal is \$100 per room. The maximum allowance for minor repairs is \$25 per room, a sum estimated to cover whitening and cleaning the room. Exterior or permanent repairs must be paid for by the district. Other general expenses such as the truant officer, superintendent of schools, district officers, insurance, rent, repairs, new buildings and equipment and general indebtedness must be borne by the town. These expenses will amount to over \$7261, as estimated, if the district is to pay the increased charge for high school tuition. The increase on high school tuition at \$70 per pupil for 117 pupils will amount to \$2983 at an increase of \$25.50 per pupil.

The total amount requested of the State Board of Education was \$15,327. The amount of state aid approved was \$11,116.98. Of this amount the State Board will disburse (from funds on hand) to this town

\$5,929.02. Should the legislature appropriate \$245,000.00 to settle the balance of the distribution of state aid approved the town will receive a further sum of \$5,187.96.

In conclusion I would say that I have found the towns people to be keenly interested and enthusiastic about educational matters. The work of the Derry Woman's Club and the Parent-Teacher Association, in the creation of a proper public sentiment and the valuable services they have rendered the schools, is worthy of note.

I wish to express my appreciation of this cordial attitude, the many courtesies you have extended, and your cordial co-operation in the administration of the schools.

Respectfully submitted,

CARL COTTON,

Superintendent of Schools.

Derry, N. H., February 11, 1921.

## REPORT OF SCHOOL NURSE.

To Mr. Carl Cotton, Superintendent of Derry Schools:

Dear Sir:—I submit herewith my first report of school nursing done in Derry School District, from September 22, 1919 to January 31, 1921, inclusive.

My salary from September 22, 1919 to July 31, 1920, inclusive, was paid by the Manchester Chapter, American Red Cross, thereby giving a demonstration of this branch of child welfare work, with no expense to the town. Three classes of "Home Hygiene and Care of the Sick" were also held during the year.

Owing to bad weather and lack of transportation during the winter of 1919-1920, not much work was done in the outside schools.

Following is a resume of work done:

Number of schoolrooms visited	402
Number of visits to homes	273
Number of children accompanied to physician	6
Number of children accompanied to dentist	4
Number of children accompanied to dispensary	14
Number of children accompanied to hospital	7
Number of children excluded because of contagion	28
Number of children inspected	6,428
Number of treatments in school	15
Number of talks to pupils in class	53
Number of inspections of buildings and premises	63
Number of hours spent in schools	366
Miscellaneous visits	268

In the first year of this service each child was given a physical examination. Doctors Barker, Cogswell, Tower, Newell, Therrien and Sanders gave generously of their time for this work.

During 1920-1921, Doctors Barker, Cogswell, Newell and Beckley have given the necessary time to examine each child. The interest and co-operation of these busy men should be appreciated by the whole community. It most certainly is by those connected directly with the work. These examinations have revealed such conditions as defective teeth, tonsils, adenoid, enlarged glands, orthopedic defects, defective vision and hearing, several cases of malnutrition and aenemia, few cardiac and numerous cases of pediculosis.

Many children have had and are still having dental treatment. a large number have had tonsil and adenoid operations, several orthopedic, vision, and hearing defects have been corrected, heads are very nearly cleaned up.

The Modern Health Crusade, a National Health Program for Schools, has been introduced, the children have shown much interest in this, as have the teachers, and many of the parents.

From health aspect the school buildings, with few exceptions, do not as yet conform to minimum requirements of the state board, in fact, some are a constant menace and should be attended to without delay.

The Floyd School and District No. 4 are hygienic buildings, being properly heated, ventilated and lighted; both have good toilet equipment. Annual soap and water scrubbings during the summer vacation would keep these buildings in excellent condition.

The Oak Street School needs a thorough cleaning. An annual washing of walls and furniture, and revarnishing when necessary, would improve conditions. Drinking facilities are inadequate, there are only two bubblers and one faucet for nearly three hundred (300) pupils. Closets in which sinks are located are dark, wet and unventilated. There are not enough toilets, those in use need cleaning, and revarnishing of wood-

work and constant attention to keep them in fit condition. Janitor service in this building is excellent.

Westside School is exceptionally well taken care of by present janitor, but if all seats and desks could be thoroughly cleaned and re-varnished, both appearance and sanitary condition would be improved. Toilet equipment is inadequate, there being too few seats, repainting these would add to the healthfulness of the school. Floors should be oiled.

District No. 7. Interior walls and wood work, also door knobs and latches need to be repaired. Boys' toilet is useless in present condition, door is broken, about one half left hanging on broken hinges, walls are defaced with vile markings, there are no covers and seats are filthy. Girls' toilet needs to be cleaned up, both vault and walls are out of condition.

Districts Nos. 3, 5, 6 and 7 have newly jacketed stoves, thus regulating ventilation and heat. Numbers 4, 5, 6, and 7 have been supplied with new water containers.

Derry Village School meets nearly all requirements. Boys' toilet could be improved, urinal especially needs attention. Floors should be oiled.

East Derry School needs attention from every point of view. Heating is inadequate, ventilation poor, lighting imperfect, toilets not in good condition.

If all school buildings could have routine cleaning, annually at least, they could easily be kept in a sanitary condition.

"Proper care of school buildings is as essential to their approval as their construction."

Respectfully submitted,  
ELIZABETH H. McCAULEY,  
Resident Nurse.
